FOREWORD

The following pages contain a summary of park use statistics for 1986. With the exception of interpretation, all attendance is reported in terms of parties, regardless of collection method, and classified under one of three categories:

A. **Campground Attendance** includes:
- campground use (collected in parties)
- group campground use (converted to parties)
- backcountry overnight use (converted to parties)
- Bowron Lake canoeists (converted to parties)

B. **Day Use Attendance** includes:
- day use (collected in parties)
- backcountry day use (converted to parties)
- winter day use (collected or converted to parties - depending on park)
- miscellaneous day use (eg: pedestrians and cyclists - converted to parties)

C. **Boating Attendance** (boats = parties)

D. **Interpretation Attendance:** reported as people contacts and includes attendance at park specific interpretation programs and staffed attractions in historical parks such as museums, operating displays, staffed buildings etc.

Although the Regional Summary of Park Attendance has been prepared for only the years 1980 - 1986, specific park attendance figures are available for the years 1975 - 1979. Also available for these years is additional information regarding average party size, average length of stay, origin of parties, and accommodation type. This can be obtained from previous Data Handbooks, the Campground or Day use profile books or by contacting the Park Management Services.

FACTORS FOR CONVERTING

PARTIES TO VISITORS

PARTY NIGHTS	X 3.2 people/party = visitor nights
PARTY DAYS	X 3.5 people/party = visitor days
BACKCOUNTRY PARTY NIGHTS	X 3.0 people/party = backcountry visitor nights
BACKCOUNTRY PARTY DAYS	X 3.0 people/party = backcountry visitor days
BOATING PARTIES	X 3.2 people/party = boating visitors

DEFINITIONS

PARTY - A group of persons, or a person, who arrives at a park, usually in one vehicle.

PARTY NIGHT - One party staying one night.

PARTY DAY - One party visiting a day use area of a park for one day or a portion thereof.

BOATING PARTY - One boat visiting a park for either day use or overnight use.

INTERPRETATION CONTACTS - Number of people attending interpretation program activities.

LIMITATIONS TO ANALYSIS OF PARK ATTENDANCE DATA

Variance in use counts can be caused by a number of factors, including weather conditions, special events, highway repairs or construction, a change in the type of recording equipment, or a change in the length of the recording season. These factors should be considered when comparing data from one year to the next. This is particularly important when analysis is park specific.

To provide additional clarification for analysis of park attendance data, some figures have been flagged with an 'e', 'h', or '*' (e.g. 64e).

e - the figure noted is an estimate of use determined by field staff and Park Management Services.

h - the figure noted represents use for a half-month only.

* - the figure noted is based on attendance counts collected for six or less days in the month.

* Day use and interpretation figures for Barkerville Historic Park are recorded under the Barkerville District.

* The figures displayed represent the total number of party nights spent on the Bowron Lake Circuit. A length of stay factor of 8 and 4.4 for the Circuit and West Side respectively has been used to obtain the monthly party night totals. This procedure differs from past years when only the number of canoes entering the lake chain was reported.
